Mirkomil Oblokulov

London, Ontario | 647-764-7799 | oblokulovmirkomil@gmail.com | mirkomiloblokulov.com

EDUCATION & CERTIFICATIONS

Western University | London, ON

Sept 2023 to May 2028 (Expected)

Double Major in Economics & Actuarial Science | Varsity Athlete, Western Men's Soccer

Actuarial Exams: SOA Exam FM, Passed (June 2026)

Relevant Coursework

Probability & Mathematical Statistics | Financial Mathematics | Stochastic Processes | Econometrics | Financial Markets (Econ 3346) | Interest Theory

Certification: Microsoft Office Specialist: Excel Expert (Office 2019)

TECHNICAL SKILLS

Programming	Statistical Methods	Software & Tools
Python, SQL, R, C, VBA	Regression analysis, Monte Carlo simulation, Time series, Stochastic modelling, Probability distributions	Excel (Expert), STATA, n8n, REST APIs, JSON, Git

EXPERIENCE

Co-Founder & COO | Core Exteriors, London ON

2022 to Present

Financial Modelling & Forecasting: Built revenue and cost models using regression analysis to project seasonal demand, managing a P&L of $70K+ and optimizing resource allocation across residential and commercial service lines.

Custom CRM Development: Engineered a proprietary CRM using Python and SQL to centralize client data and automate lead management for a 20+ person team, reducing administrative overhead and improving data integrity.

Workflow Automation: Architected backend logic using JSON data structures to integrate quoting, invoicing, and scheduling workflows, quantifying efficiency gains through operational metrics tracking.

Strategic Expansion: Performed cost-benefit analysis to diversify into commercial contracts, applying data-driven outreach to grow revenue to $70K+ in 2026.

Marketing & Consulting Intern | United F.C., Toronto ON

Feb 2024 to Aug 2024

Business Development: Negotiated and secured high-value sponsorships with local business owners, directly improving the club's financial sustainability and long-term funding runway.

Resource Optimization: Applied cost-benefit analysis and vendor benchmarking to optimize allocation of operational resources, achieving measurable cost reductions across equipment and facility contracts.

Stakeholder Management: Served as primary point of contact for sponsors, maintaining professional relationships to ensure continued ROI and multi-season partnerships.

Digital Growth Strategy: Designed and executed data-driven campaigns across LinkedIn and Google, scaling organic engagement from 0 to 10,000+ views.

PROJECTS

Sports Arbitrage Detection Engine

Quantitative Modelling: Developed a multi-variable algorithm applying the arbitrage condition ($A = 1/O^n < 1$) to calculate Total Implied Probability across global sportsbooks, generating $10,000+ in risk-free profit through expected value maximization.

Probability & Risk Analysis: Modelled probability distributions of match outcomes to quantify exposure and minimize probability of ruin; implemented proportional staking formula (Stake = Total Investment x IP/TIP) to guarantee equal profit margins regardless of outcome.

Data Pipeline & API Integration: Developed custom scripts interfacing with multiple REST APIs, ingesting and normalizing thousands of real-time data points into a standardized JSON format for downstream analysis.

Stealth Logic & Operational Risk: Implemented "Stealth Rounding" to manage operational risk from account detection, maintaining long-run profitability of the strategy.

Integrated AI & Quantitative Automation Suite n8n, Python, Claude, SQL

Quantitative Crypto Trading: Engineered a trading algorithm using multivariate regression and triangular arbitrage to exploit price inefficiencies, generating $10,000+ in revenue; computed risk-adjusted returns (Sharpe ratio) and maximum drawdown to evaluate strategy performance.

Agentic System Design: Architected a multi-agent system using Claude and n8n to automate company communications, CRM development, and lead generation for residential and commercial pipelines.

Technical Infrastructure: Managed secure REST API key integration and debugged complex JSON data structures to ensure seamless synchronization between AI agents and live market feeds.

EXTRACURRICULAR ACTIVITIES

King's KAMP Mentor

Led transition programming for 100+ incoming students, managing mentorship sessions and resource referrals to support academic and personal success.

VP Outreach | Turkic Cultural Club (TCC), Western

Lead outreach, sponsorships and collaborations with other clubs, and help secure funding for a club of 200+ members.
